Say Yes Buffalo is excited to announce our 6th annual Say Yes Buffalo Summer of Service. We invite you to make a difference in your community this summer. Whether you’re interested in volunteering or donating, there are many ways to get involved.

Summer of Service is a unique opportunity for you to make a meaningful impact in your community. With a focus on education and support for students, this program offers a variety of service opportunities to choose from. You can volunteer at local schools, community centers, or directly support students with tutoring or mentorship.

The Summer of Service program includes a range of activities, such as tutoring, mentoring, community service projects, and educational workshops. These activities are designed to meet the needs of the community and provide meaningful experiences for both volunteers and participants.

Summer of Service is open to all, regardless of age or background. Whether you’re a student, a parent, a community member, or a professional, there is a role for you in our mission to support education and empower young people.

If you’re interested in learning more about Summer of Service or how you can make a difference, please visit sayyesbuffalo.org/summer.
